Challenges Facing IT Leaders

The role of IT leaders has rapidly evolved. IT leaders are responsible for much more than just maintaining networks and computer systems.

Market trends contribute significantly in driving the continual expansion of the role as leaders are required to leverage these trends and operationalise creative solutions to maximise opportunities for their companies.

Tomorrow's IT world is nothing like the one of today...

Market Trends

64%

According to an SHRM survey, remote work has increased from **3% to 64%** during the Covid pandemic.

71%

of top-performing CIOs have a **separate digital team** to help them scale their digitalisation efforts (Gartner).

60%

of CIOs have frequent access to the main boardroom. The **influence** CIOs have on their business is **at a 10-year high**. (Harvey Nash / KPMG).

95%

of CIOs surveyed said they expect **cybersecurity threats to increase** and impact their organisation (Gartner).

84%

of top CIOs are responsible for areas of the business **external to traditional IT** (Gartner).

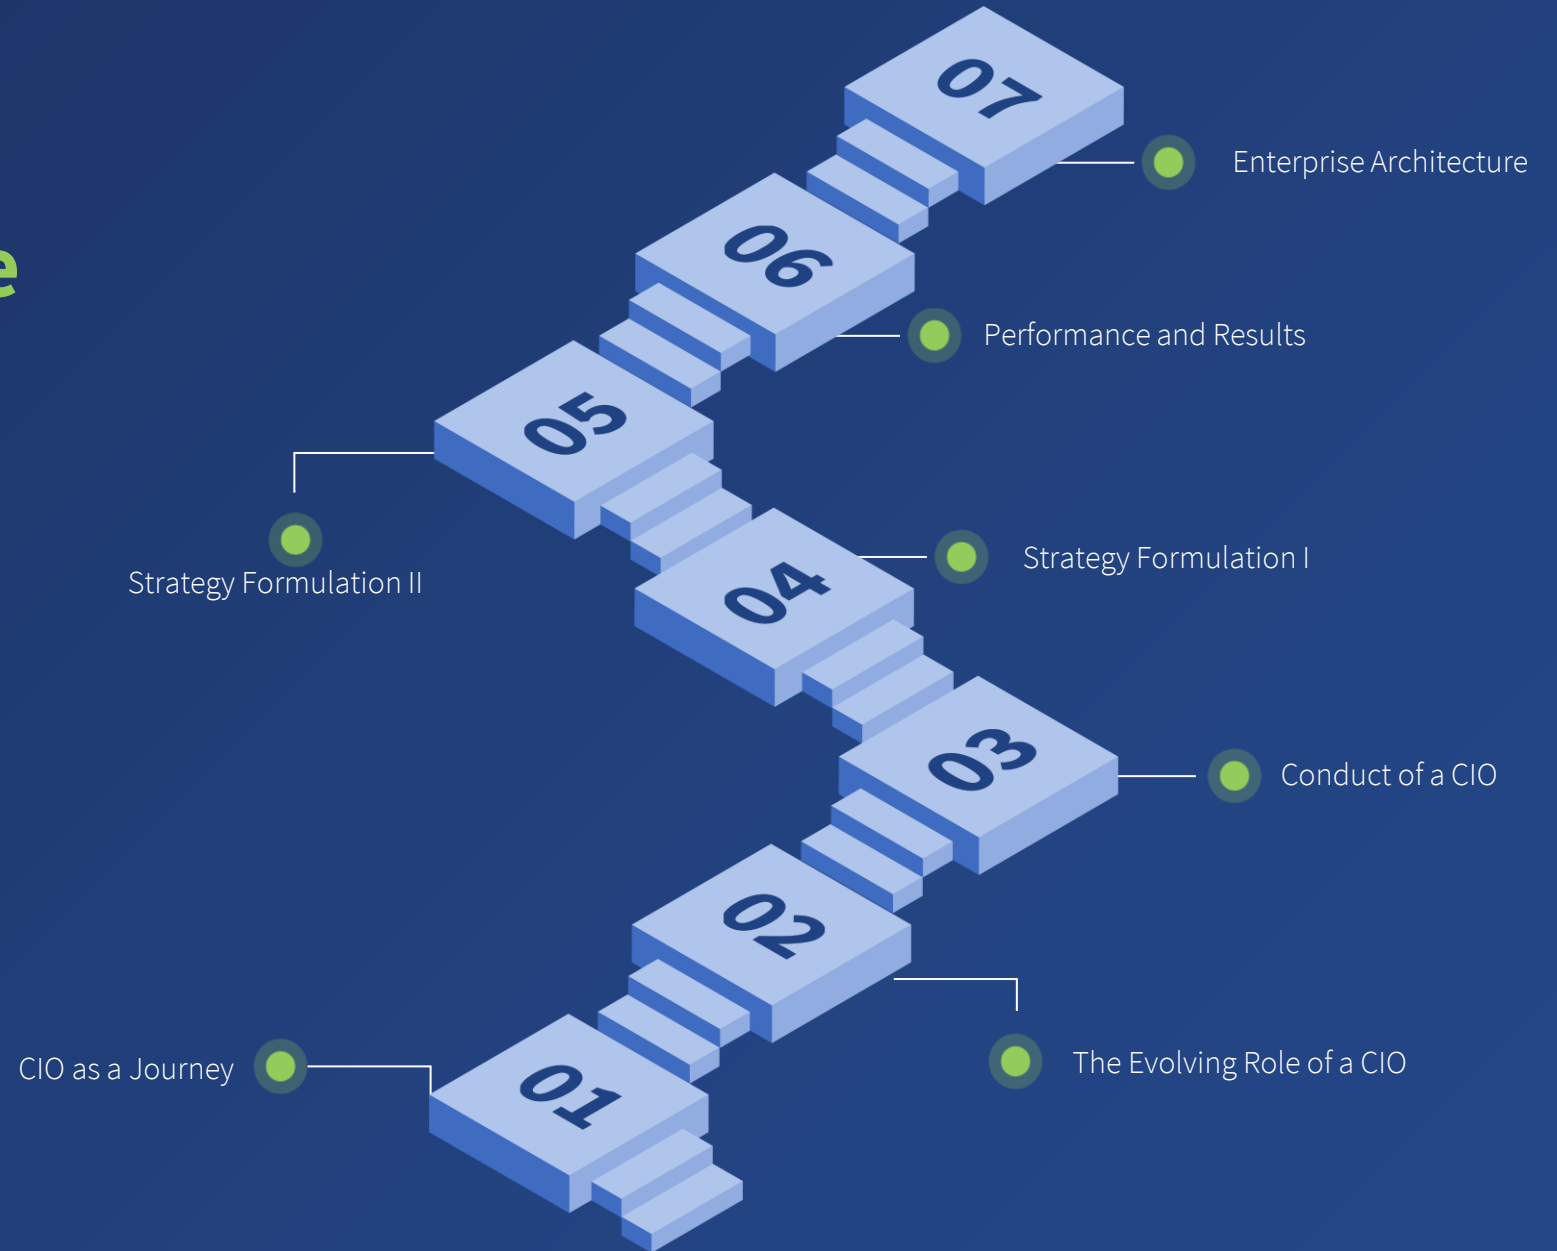

41%

The number of organisations with a **business-wide digital strategy** is up from 27% to 41% (Nash/KPMG).

How to Stay Ahead of The Digital Curve

Introducing Moyo's CIO Mentorship Program

The program strives to equip IT Officers with critical insights into the unexpected workings of a CIO and provide a powerful opportunity for delegates to engage with leaders across multiple industries and share in a wealth of knowledge.

Meet the Program

Mentors

Hosted by experts within the IT industry, the program navigates delegates through a developmental journey covering six core modules critical to becoming a successful IT Officer during the Fifth industrial revolution and beyond.

“ If you cannot see where you are going, ask someone who has been there before. ”

- J Loren Norris

Len de Villiers

A seasoned and highly regarded CIO, with a passion for mentoring aspirant CIOs on their leadership journey.

Helena Hofmeyr

An experienced Human Resources Specialist with a demonstrated history of working in a variety of industries.

Module One

CIO as a Journey

It is an arduous journey to becoming a successful IT leader - let's uncover the characteristics and capabilities required to thrive.

The Journey

Walk the path to becoming an IT Officer.

CIO Characteristics

Discover 22 characteristics that make next level leaders.

Core Capabilities

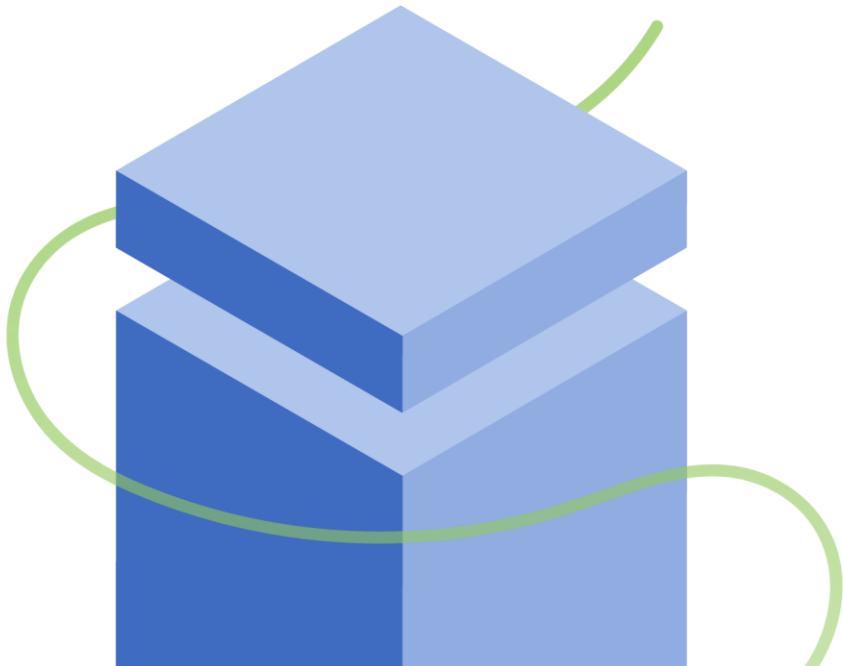

The evolving role of a CIO in the pandemic and beyond.

Module Two

The Evolving Role of a CIO

What role does an IT Officer fill? In this module, we define the role and discuss the activities that drive stability in a dynamic digital landscape.

Digital Age Leader

Learn how to manage large IT teams and projects.

Role Description

Discover typical structures and span of control.

The Dynamic Role

Learn to adapt to changes in the digital landscape.

Module Three

The Conduct of a CIO

Relationships are hard work. Join us as we develop helpful skills to build a healthy workplace for you, your colleagues, and your employees.

C-suite Dynamics

Learn how to deal with politics and c-suite peers.

Company Culture

Cultivate cultures and create healthy environments.

Managing Ethics

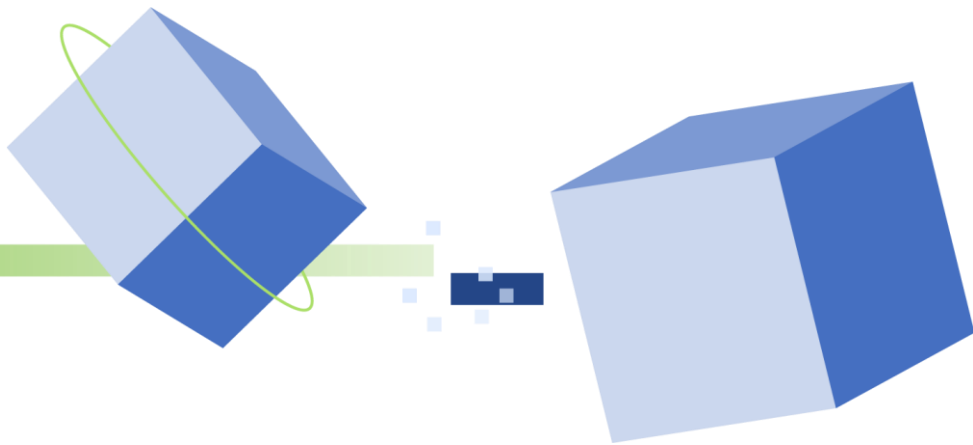

Doing what is right, not what is easy.

Module Four

Strategy Formulation I

The most crucial role for an IT leader is that of a strategist. This module aims to cultivate this ability with clear building blocks for successful decision making.

Best of Breed vs Best of Suite

Learn how to manage large IT teams and projects.

Strategic Building Blocks

Discover the fundamental skills to drive your career.

Legacy Systems

Learn to adapt to changes in the digital landscape.

Module Five

Strategy Formulation II

Building on the previous module, Module Five contextualises the skills covered in Module Four. For example, describing essential business processes and their outputs.

Strategic Roadmaps

How to devise an enterprise architecture roadmap.

Constructing an IT Plan

Define IT-enabled business management processes.

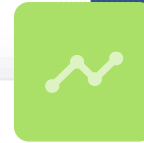

Building Frameworks

Learn to produce prioritisation frameworks.

Module Six

Performance and Results

How is organisational success quantified? Learn techniques for measuring not only quantifiable performance and results but also qualitative outcomes.

Measure Performance

10 categorised practical examples.

Team & People Health

Frameworks for measuring organisational health.

Drive Resolution

Learn to use SWOT analysis to drive resolution.

Module Seven

Enterprise Architecture

Elevate Your IT Leadership: Harnessing Enterprise Architecture for Future-Proof Strategy and Success

The EA Job Profile

Learn what the Enterprise Architecture Job Profile is as part of the CIO Function

EA Frameworks & Layers

Frameworks and Layers of Enterprise Architecture

EA Strategy and Future

Learn how EA strategy should guide the future
